Who should attend?

- > Physical Therapists/
Assistants
- > Occupational
Therapists/Assistants
- > Certified Athletic Trainers

Education level: Intermediate

Certification

-PT/PTA: This activity consists of 7 clock hours of instruction that is applicable for physical therapists. CE requirements for physical therapists vary per state/jurisdiction. Please retain the certificate of completion that you receive and use as proof of completion when required.

-OT/OTA: This course has been approved for 7 contact hours/0.7 CEUs by the American Occupational Association (AOTA). "The assignment of the AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA."

-ATC: This course has been approved for 7 CEUs by the BOC.

Course Objectives

**Upon Completion of this course
participants will be able to:**

- Assess the impact of hormones on training and performance throughout the menstrual cycle.
- Identify key subjective and objective examination findings to assist with diagnosis of athletic pubalgia in patients with hip/groin pain.
- Identify current orthopedic applications considering stem cell therapy.
- Instruct patients with hypermobility in lifestyle modifications.
- Recognize concussion as a potential cause of neuroendocrine dysfunction.
- Identify indications and contraindications for a unicompartmental knee arthroplasty.
- Review surgical treatment of femoroacetabular impingement syndrome and labral tears in the hip.
- Describe principles of minimally invasive spine surgical techniques.
